Abraham Mulugeta Adebash
UI/UX Designer | Product Thinker
Addis Ababa, Ethiopia • Open to Remote Work
Email • Portfolio

Creative and self-taught UI/UX designer with 2+ years of hands-on experience building clean, functional, and culturally grounded digital experiences. Passionate about solving real-world problems through thoughtful interface design and user-first thinking. Experienced in taking self-initiated projects from concept to prototype. Open to freelance, internships, and collaborations.

Experience

Product Designer
Self-Initiated Project • Remote • Jan 2023 – Present
Habeshlingo – Gamified African Language Learning App

- Designing a language learning app focused on African languages including Amharic and Afaan Oromo, inspired by Duolingo

- Creating wireframes, UI mockups, and a gamified experience with onboarding and streak systems

- Focusing on user retention, localization, and accessibility

UI/UX Designer
Collaborative Project with Ethiopian Orthodox Tewahedo Church (EOTC) • Remote • Feb 2023 – May 2023
Aelafat Zemare – Hymns Audio Streaming Platform

- Built a spiritual audio app for Ethiopian Orthodox hymns with minimal, respectful UI

- Designed intuitive flows for search, playlists, and offline listening

- Balanced modern UX with traditional cultural values

UI/UX Designer
Self-Initiated Project • Remote • Mar 2023 – Present
FlexET – AI-Powered Fitness App

- Designing user dashboards, workout planners, and progress tracking features

- Creating motivational UI with dynamic recommendations and session feedback

- Blending aesthetics with performance for hybrid athletes

Product Designer
Outsourced Contract • American Medical School • Remote • Apr 2023 – Jul 2023
HabariDOC – Medical Consultation App

- Designed an end-to-end solution for booking, consultation, and prescriptions

- Developed clean dashboards for doctors and patients with accessibility in mind

- Integrated with AI-based workflows for user convenience
